Subject: Opioid Application Update- Grant Awarded!

Good Morning All,

Just wanted to let you all know that we just received word that we were awarded \$899,000 for the Opioid Collaborative Grant submitted back in June. This is exciting for our community and gives us yet another tool to be able to use to address the issue of opioids in this community. I know that the particulars of the grant may be a little fuzzy for many of us, so I am hopeful to be able to get some organized meeting together within the next days or week to talk about next steps with all of the partners. Please be on the lookout for more information regarding that soon.

Today, we will just celebrate the opportunity that lies ahead for Shelby County to address issues of addiction in a meaningful way over the next three years.

Our office will be in touch soon!

Subject: Opioid Application Submitted

Good Morning,

Thanks to all for your input into the collaborative opioid proposal for funding. I am happy to report that the application was submitted on time last night, with a whole hour to spare. I have attached a copy of the final narrative and project timeline that were submitted within the application package for your records. I will contact each of you when we are notified of whether our application was funded, hopefully within the next several weeks.

A huge thank you goes to Dr. Madden for pulling all of this together on our behalf. I hope she is getting a much needed day of rest!

Fingers crossed that our proposal will be funded and we can continue to do even more to address the

challenges of opioids in our community.

Subject: Draft of opioid proposal Statement of Problem

Please review and comment. This is just the Statement of the Problem portion and the beginning of descriptions of participating agencies.

Also, I will need a brief description of each agency and its capabilities and competencies to develop and implement the program (I have started some of them, mainly copying information from the internet). Feel free to correct/add as necessary.

Thanks.

Subject: Re: Meeting to discuss opioid grant application

Good morning,

I am writing to follow up on the Tuesday meeting wherein we discussed the Comprehensive Opioid Abuse Site-Based Program application to the Bureau of Justice Assistance. If everything below is accurate and you all agree to support this application, I will need letters of support to that effect. Each letter should specify the role that your agency is willing to take in developing and implementing the program. Some of you may already have received requests for letters. If so, please disregard this request. Dr. Stern has secured or is in the process of securing letters from his world (EMS, hospitals, UTHSC). I am responsible for the criminal justice world! If I have omitted anything or included something that just is not feasible or desirable, please let me know. Keep in mind that the first several months of the program would be spent putting together a team of stakeholders and working on logistics, policies, procedures, HIPAA concerns, etc., so if something proposed will take a change in policy, we will have time to do that after award.

Also, I have just now sent an email to folks from the prosecutorial world about #4 and #5 below. I wrote what I THINK can be done, but I am not sure. Those 2 may change or go away entirely. I also have asked whether it would be useful to bring in someone from the defense side of things (Stephen Bush, most likely). Waiting to hear back.

The program proposes to:

- 1) connect victims of non-fatal opioid ODs to navigators/peer recovery specialists (APRS) as soon as possible after the OD and encourage them into treatment/services (MPD/SCSO/EMS);
- 2) screen jail entrants for risk of opioid OD and connect those individuals at "high-risk" to APRS (jail medical /SCHD);
- 3) screen SCDC inmates for risk of opioid OD during the pre-release process and connect those at "high-risk" to APRS (SCDC);
- 4) screen individuals who are charged with certain offenses (e.g., shoplifting, prostitution) for risk of opioid OD and divert those at "high-risk" from prosecution by connecting them to APRS (SCDAG, defense attorneys). Requires judicial cooperation. *Could participation in Dr. Stern's program be a condition of probation?*
- 5) divert individuals who are ineligible for drug court by connecting them to Peer Navigators (SCDAG, defense attys). I'm a little fuzzy on what was discussed here. I know Joey Griffin mentioned "drug court rejects," but I am unclear who these folks are and how the screening and diversion might work.

In addition, local emergency rooms will serve as sources of referrals for individuals who present at high-risk of OD (screen and refer).

Thank you so much for any clarification and/or specifics. I hope to write the bulk of the proposal over the weekend. If I missed anyone on the email, please forward to them and copy me so I will know who I overlooked.

Subject: Meeting to discuss opioid grant application

Good afternoon,

This is just an informational email to let you know that I will be trying to schedule a meeting for after Memorial Day to discuss the opioid grant application. Although we have a vague outline of a program, we really need to fill in the blanks and hammer out some specifics.

Please be thinking about your availability Tuesday-Friday of next week (preferably Tuesday!).

Thank you,  
Angela
